

frequency relays

Frequency relays measure the frequency on PIN 15. If the frequency value is bigger than the defined value the relay switches. To avoid wobbling the switch- off threshold is lower than the switch- on threshold.

Part number	Characteristics
N5-1021-0002	12 V; 10/15 A; switch- on threshold: 100 Hz; switch- off threshold: 95 Hz
N5-1022-0001	12 V; 10/15 A; switch- on threshold: 505 Hz; switch- off threshold: 454 Hz

accessories

- standardrelay sockets (S. 116)
- bracket K9-2901-0000 ¹(S. 112)

¹only valid for N5-1022-0001
