Change poses **new challenges**. Accepting new challenges is our trademark for 60 years of activity.

The current pandemic emergency forces all operators in the Bus&coach sector to adapt safety devices within the means of transport.

The PROTECTO line of roller blinds is born, a series of transparent protective barriers, which allow drivers to work in total safety and at the same time allows **total lateral and rear visibility**.

The new line is the result of LAM experience in this sector: high-quality materials, lightweight and high-transparency fabric, details definition, extensive customization of hooking and mounting systems (ceiling or floor), easy to install and to remove, ready for use.

Innovation has always guided us.

OPEN TO INNOVATION
ROOF HATCHES & ROLLER BLINDS, SINCE 1960.
